LIFE SKILLS & PERSONALITY ENRICHMENT PROGRAM

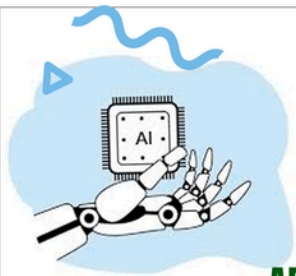

KEY MANDATE OF NEP 2020 HOLISTIC DEVELOPMENT OF THE CHILD

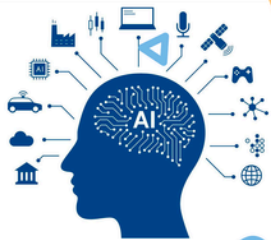

PARENT TEACHER COMMUNICATION

Parent-teacher communication in K5 begins at the start of a school year and lasts until students move onto the next grade. Teachers and parents will make introductions and gradually establish a relationship based on what they have in common: the student. Parent-teacher communication can take place in person, typically through parent-teacher conferences or during student drop-off or pick-up times. Teachers can also reach out to parents on the phone or by email .

AI

ARTIFICIAL INTELLIGENCE **PERSONALISED LEARNING SOLUTION**

A holistic curriculum framework with differentiated pedagogy catering to all types & levels of learners

AI DRIVEN PERSONALISED LEARNING

- Pre-Mid Term
- MID TERM

SEM-2

- POST MID TERM
- ANNUAL

PEDAGOGY

- Teaching strategies shall be planned and submitted by all the teachers every day to the in charge for evaluation
- Teachers shall plan the aids for better teaching and understanding for the prescribed subjects.
- Every teacher should prepare a daily planner keeping the weekly and monthly planner in perspective.

ASTRA PLUS

AstraPlus
every child is unique

Integrated curriculum is designed with multi-coloured Course Books, Activity Books, ArtZone, Assessment Sheets, Learning Aids, Eye Catchers, 3D Animated Lessons, i-Books and i-Activities. All the digital tools are accessible 24 X 7 to Students, Teachers and School Management through our user-friendly Astra One App. Academic Support is provided to schools through Lesson Plans, Answer Keys, Product Training, Teachers Orientation Programmes, School Support Visits and 9-Nine Support.

The curriculum adheres to the National Curriculum Framework (NCF) and is thoroughly compliant with NEP 2020 guidelines. The curriculum is prudently formulated with scholastic and co-scholastic activities that nurture multiple intelligences in every child.

- Extending learning beyond school
- Courseware integration with subject-concept videos, interactive subject activities, assessments through cloud-based app.
- Use your own device concept: use any supporting device at home.
- User friendly interface, interesting content, effective learning at students' own pace.

6 STEP SEQUENTIAL PROCESS OF 'I LEARN' METHODOLOGY IS TEACHER - CHILD FRIENDLY MAKING LEARNING AN EXPERIENCE OF JOY

Explain the lesson by using Course Book

Introduce the lesson by referring Manual

Reinforce by doing Multimedia Activities

Listen & See Multimedia Lesson

Note down by writing in Workbook

Apply by working in Activity Book

TEACHING AIDS AND PLAY EQUIPMENTS

Mathematics Laboratory is a place where students can learn and explore mathematical concepts and verify mathematical facts and theorems. through a variety of activities using different techniques.

The Math lab kit is a whole set of equipment to teach complex mathematical concepts.

TEACHING AIDS AND PLAY EQUIPMENTS

E-LIBRARY

The E-Library is designed to provide a place for students to collect and preserve knowledge, and to enrich and further develop the subject areas in which students are taking their formal education, However, in order for all, to fully benefit from these resources.

LEARNING BEYOND BOOKS COMPETITIONS

Competitions and Stage shows are conducted to encourage and promote creative and innovative mind among students.

PROGRAMME COMPLEMENTING ACADEMICS LEARNERS STRENGTHENING PROGRAMME

Learners strengthening program aims at improving the students' performance and increase student achievement. Our assessments help us to know the scholastic ability of each child. Some subjects may be challenging for some children. We do not want to brand them as 'slow learners'. We have Learners' Strengthening Programme to improve the basics. It is an after school session that ensures that teachers give special focus on each such child and bring them to our expected standards.
